## PEDESTRIAN SAFETY

### FEATURES

- Utilizes the patented Shur-Flex® system
- Non-mechanical flexible design is self-righting upon impact
- Single or double sided panels
- School Zone designation panels
- Premium UV added for long lasting color
- Portable or permanent bases
- Quick and easy installation
- MUTCD Compliant

### SPECIFICATIONS

#### Shur-Flex® System - 3 Component Design

- The flexible square to round joint is a simple one piece, non-metallic molded design that withstands multiple impacts assuring long-life in corrosive environments.
- Posts are manufactured with a greater wall thickness to provide structural integrity.
- Panels can be single or double sided per requirements
- All components can be replaced independent of the others resulting in maintenance savings
- One pin - one minute! We've made it quick and easy to install or replace a post.
- The 35lb. RB-35 rubber base is completely portable, while the surface mount base allows for a permanent installation with included anchor bolts.
