QUICK + SIMPLE

Remarkably fast assembly/disassembly process requires only one person. Block Axess can be deployed in less than 10 minutes without the need for extensive manpower or time-consuming processes.

VERSATILE + CUSTOMIZABLE

Modular design allows for various sizes by simply adding components. The customizable laser-etched plates enable you to incorporate your city, event, or company's name to fit your needs.

HIGHLY SECURE

Constructed from thick, galvanized steel, Block Axess provides robust security. Its tamper-resistant assembly and disassembly requires specialized tools, ensuring that the security can't be compromised.

CERTIFICATIONS

SOURCEWELL

Traffix Devices, Inc. stands as a trusted partner for public safety and traffic management, offering a comprehensive portfolio of solutions now readily available through the Sourcewell cooperative purchasing program.
