KEY FEATURES

Low profile sign stand designed for use with 36" and 48" roll-up signs. Steel plate molded into a recycled rubber base.

Sturdy

- 38 lb. base made of steel plate molded into recycled rubber
- Weight and footprint prevent stand from tipping in windy conditions

Low Profile Design

- No folding legs that extend out into traffic
- Takes up very little space; vertical mast folds down and locks into place
- Mast folds down for compact storage

Simple Set-up

- Release the lever and raise the mast to lock into upright position
- Simple lock-in-place mechanism for signs

Easy to Carry

- Two molded-in carrying handles for easy movement and placement
