Description

Upgrade your parking lot safety with our **6-foot commercial parking blocks**, also known as **wheel stops**, designed for optimal vehicle control and space organization. These high-quality parking aids are constructed from heavy-duty materials to withstand the rigors of daily use, ensuring long-lasting performance in commercial, residential, and industrial settings.

Perfect for parking lots, garages, or private driveways, our **parking blocks and wheel stops** provide a reliable solution to prevent vehicle over-travel and protect adjacent structures, landscaping, or pedestrian pathways.

- Choose - Safety Yellow, Gray, White, EV Green, Handicapped Blue, Red, or National Park Service Brown
- 70.5" long x 5.75" wide x 4" tall
- Includes three (3) fasteners per block
- Approximately 16 lbs. each

Engineered for added strength at lower weight, the 6-foot commercial plastic parking block can be carried and installed by a single person. LEED qualified and made from injection-molded, 100 percent recycled HDPE plastic, this parking stop resists tire scuffing and natural elements. The color is molded throughout – there's no upkeep required. Great for shopping mall parking lots, apartment and condo complexes, and commercial grounds. Has recessed bolt holes and mounting hardware is include.
